Human-Centered Design Engineering Student — Expected Graduation: June 2027
Relevant areas: Interaction design, inclusive design, UX research, prototyping, human factors

SELECTED DESIGN PROJECTS

NO CLOUDY DAYS | *Inclusive Product Design*

- Co-designed a physical-digital activity system with a newly retired adult, using interviews and iterative feedback to shape an accessible experience centered on independence, simplicity, and meaningful routines.
- Developed and tested prototypes around privacy, intentional interaction, accidental-input prevention, and long-term engagement.

FOOD LOOPS | *UX Research & Product Design*

- Designed an ingredient-management and food-sharing experience aimed at reducing food waste while minimizing staff burden.
- Conducted usability testing with students and staff and iterated from low-fidelity concepts to a mid-fidelity inventory, listing, and request experience.

EXPERIENCE

ACCENTURE — Bangkok, Thailand
Management Consulting Intern — Jun 2026 - Aug 2026

- Mapped end-to-end customer journeys across banking, wealth, and lending experiences to identify user pain points, service gaps, and opportunities for experience improvement.
- Conducted customer, competitor, and product research and synthesized findings into clear frameworks and recommendations for project leadership and client stakeholders.
- Created process flows and executive presentations that translated complex business and user needs into clear, decision-ready narratives.

ASCEND GROUP — Bangkok, Thailand
Operations Intern — Jun 2023 - Aug 2023

- Designed UX/UI wireframes for a next-generation e-commerce platform, translating user behavior and business requirements into interface concepts.
- Conducted regional e-commerce market and competitor research to support product direction and market positioning.
- Collaborated across business and operational needs while improving internal workflows and reporting accuracy.

ACCENTURE — Bangkok, Thailand
Project Manager Intern — Jun 2025 - Aug 2025

- Coordinated cross-functional workstreams for a fully virtual bank, helping teams resolve delivery issues and manage change requests across a digital lending program.
- Built reporting and tracking systems that improved visibility and reduced reporting turnaround from 2-3 days to same-day.

LOTUS'S — Bangkok, Thailand
Format & Operational Development Team Intern — Jun 2022 - Aug 2022

- Conducted on-site research to identify operational pain points and translated observations into recommendations and presentation narratives for senior stakeholders.

LEADERSHIP

UW THAI STUDENT ASSOCIATION — 2023 - 2024
President

- Led student-organization planning, events, and community engagement while coordinating initiatives with other university organizations.
